EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: One reason for allowance is that the prior art of record does not show a pliers head for pressing work pieces having a housing and lever, as separate parts, forming a C-shaped mouth with the lever being arranged to be subjectable to a pretensional force of at least a value of a predetermined maximum pressing force of the pliers head and with the lever being pivotal about a joint located at the housing. Furthermore, the prior art of record does not show a pliers head for pressing work pieces having a housing and lever, as separate parts, arranged to form a C-shaped mouth with the lever being arranged so that the lever pivots about a joint connected to the housing and with a resilient element arranged to supply a pretensional torque to the lever such that the pretensional torque counteracts the pressing torque resulting from movement of a movable die towards a stationary die within the pliers head.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
